

POLICEMEN
ARE GUILTY

GARRY
FINED \$175

FIGHTING OFFICERS ARE
TRIED BY THE POLICE
BOARD.

BOTH ARE SUSPENDED
UNTIL THE FIRST OF
AUGUST.

At the meeting of the Board of Fire and Police Commissioners this morning, Officer William McClellan was fined \$175, and Officer Peter Garry was fined \$175. The suspension of both officers was continued from the present time to August 1st.

The decision of the Board was reached in executive session and the vote in open session was unanimous. McClellan was allowed until September 1st to pay his fine. In Garry's case, \$175 is to be paid September 1st, and \$75 October 1st.

This penalty is the outgrowth of the fight between the officers at Seventh and Market streets on the 10th inst., in which it is claimed McClellan used objectionable words toward his brother officer Garry, who said later he was not hurt. McClellan and Garry then had a fierce hand-to-hand battle and finally the latter drew a pistol. Nobody was seriously injured.

THE TRIAL.

At the close of the meeting of the Committee of the Whole of the Board of Public Works this morning, there was a consultation between Messrs. Snow, Dow, and Clement as to the manner in which the charges of using vulgar language and of conduct unbecoming officers against the policemen should be heard by the Fire and Police Commission.

Mr. Snow said that he thought the easiest way would be to have both officers appear before the Commission and have the communications of the Chief of Police read to them. It was a matter perhaps in which nothing more would be required to be done than to accept the statement of the Chief, if the accused officers in question were satisfied with the showing.

Mr. Dow said that the inquiry would have to be in secret.

Mr. Snow said he did not understand that such was the case or that it would be necessary to go to that formality.

Mr. Clement said it had been customary to talk such matters over in executive session. He produced a copy of the police department's report, returned to the committee, which insisted on an inquiry in executive session.

SECRET SESSION.

The Board of Police and Fire Commissioners then went into the committee room of the Council, accompanied by Secretary Jackson, Chief Bookkeepers and Officers Garry and McClellan, both of whom had been waiting some time for the investigation.

After about five minutes, Officers Garry and McClellan reappeared, from the executive chamber.

The members of the commission declined to talk on the proceedings behind closed doors but the business was conducted that the votes of the participants in the inquiry penetrated the surrounding walls.

THE EVIDENCE.

After the investigators had taken their seats, the communications of the Chief of Police on the subject, were read by Secretary Jackson.

Officer McClellan said that there seemed to be two implied charges in the communication of the Chief, namely the use of vulgar language and the drawing of a pistol. He said he desired to plead not guilty to the charge of the use of improper language and also to the drawing of the pistol, while he admitted having taken part in a fight with his brother officer. His denial of the story that he had drawn a pistol and that it had been taken away from him was accompanied by the statement that the weapon had fallen out of his pocket. Mr. McClellan stated further that on the night of the difficulty there had been an incident in the restaurant, who had heard some remarks made of a derogatory character and he believed that when that person had left the restaurant and gone out he (McClellan) had no doubt that the individual had told Garry of things that had never been said.

PLEADS GUILTY.

Officer Garry had little to say. He declared that he desired to plead guilty to the charges such as they were synopsized in the communication of the Chief and that he was willing to submit to such a punishment as the Commissioners might see fit to give. He stated that the prosecution was exceedingly great, being such as would warrant an attack of one citizen upon another and was all the more humiliating coming from a brother officer.

THE JUDGMENT.

Mayor Snow said that it would not be necessary to say anything further in the case in view of the plea which the officer had made.

The accused officers were then excused from attendance on the board and told to wait without.

At 12:30, after a session of nearly two hours, the officials moved from their place of meeting and reappeared as members of the Board of Fire and Police Commissioners.

Resolutions were adopted in substance as given in the opening paragraph of this article.

In arriving at a conclusion, the board considered that it had the right to dismiss the men, to fine, to reprimand or to suspend them. It concluded that it would not be advisable to dismiss them. At the same time it concluded that there ought to be something done to prevent such a thing in the future and it, therefore, decided upon a suspension, reprimand and fine.

Mr. Dow was of the opinion that Mr. McClellan was the party who was assaulted and therefore the lesser offender. He was in favor of having the penalty visited upon that officer very light. There was some discussion on the subject.

With regard to Garry, it is understood that Mayor Snow was in favor of fining him \$125. Mr. Dow wanted to have the fine fixed at \$200. A compromise, however, was effected and Garry's penalty was fixed at \$175.

Samoans Fighting and
Serious Trouble
Feared.

Associated Press Dispatches by The Tribune's Special Leased Wire. SAN FRANCISCO, July 28.—Samoan troops, under the lead of Chief Tuiasau, were received today by the steamer Moana, as follows:

The situation in Samoa is one of great uneasiness, the attitude of the natives being far from reassuring. Several fights have occurred in different portions of the island, but the Samoan troops of the island have been victorious. CHAMBERS TURNED DOWN.

Chief Justice Chambers, being dissatisfied with the support extended to his chief by the Commissioners, will leave today for Washington. Their action in refusing the aid asked for to sustain the court's authority is said to have been prompted by disapproval received by the German Commissioner from his home government, which, it is claimed, is greatly displeased with his recognition of the decision of the Supreme Court in the kingdom case.

COMMISSIONERS WELL TREATED.

The Commissioners have been well received on all the islands they have visited. At Apia, the capital, they were met by the chief of the island, who prepared to accept the proposed abolition of the royal office and the substitution of an executive appointed by the three powers. THE FIGHTING MATAPAANS.

At Matapa on July 4th, some Matapaans attacked the home of an opposing chief named Tuiasau, who, with two others, was badly wounded. J. M. S. Tereh went to the scene, but quiet had been restored.

Last week the Chief Justice issued orders to certain towns in Samoa to appear before the Supreme Court on certain civil cases, where the judgment of the court had not been complied with. Chief Justice ordered them not to obey, telling the towns to pay no attention to the orders of the court, which were only words in paper. Some towns did not appear, while from the remaining ones only Matapaans appeared.

MOLTEN.

Hawaii's Volcano Is
Still in Full
Blast.

Associated Press Dispatches by The Tribune's Special Leased Wire. HONOLULU, July 21 (via San Francisco, July 25).—The volcano eruption on Mauna Loa is still in full blast. The lava flow is apparently filling up the table land between the Humuhua sheep ranch. Hilo and the whole island of Hawaii are enveloped in smoke. Vessels encounter dense clouds of smoke hundreds of miles out at sea, and navigators are seriously inconvenienced. Kilauea is also smoking freely, and the indications are that this volcano will soon be in active eruption.

ASCENDED THE VOLCANO.

Frank Davey has returned from a visit to the volcano. He says there is a series of eight craters. Five of them were dead, but appeared to have been active quite recently. One of the others was belching forth smoke and fire and molten rocks of great size. According to Davey, the rocks were as big as houses, and went so high that they cooled before falling to the ground again.

It took Davey and his party fifteen hours to ascend the mountain from the active crater to the summit, where their horses were left. When they became delirious on the way for want of water. The trip is described as a terrible one in the extreme. All around the top of the mountain it was cold. At the crater it was very hot. The extremes were such as would make almost anybody sick.

A TERRIBLE EXPERIENCE.

J. S. Pratt was caught on a knoll high up on Mauna Loa on two sides of which the lava was flowing. The sun was nearly down. He did not know which way to go, and spent the night there as a desperate chance, as he thought, for his life. He sat up all night and watched the lava flow. When the fumes were blown his way he would have to lie down on his face to keep from suffocating. Next morning he found his way out by following back down between the two flows.

IS BACK.

Chief Justice Chambers
Arrives From
Samoa.

Associated Press Dispatches by The Tribune's Special Leased Wire. SAN FRANCISCO, July 28.—Chief Justice W. L. Chambers of Samoa arrived here today on the steamer Moana, accompanied by his family. He is on a four-months' leave of absence, but says that his business in the United States is of such a nature that he will probably not return to Apia.

CHAMBERS INTERVIEWED.

In an interview the Chief Justice said:

"All is now quiet in Samoa, but I cannot answer for the future. Both Matapa and Mafetua affect to be satisfied with the present arrangement, which abolishes the office of King and vests the responsibility of government in the Councils of the three powers. I feel sure Mafetua is sincere in this. Though fairly elected, and after election accepting the kingship, he never had been ambitious in that direction. As soon as the commission arrived he proposed to resign a spirit which later proved to be in accord with the plans of the Commissioners, and I have every reason to believe that he will live up to his bargain."

MATAPA AN ABLE MAN.

"Matapa is ambitious. For many years he has thirsted for power, and will not be easily satisfied. At the same time he is a man of exceptional ability, is shrewd and I have never thought the interests of the natives would especially suffer in his hands."

"Yes, my decision has been sustained by the Commission, and has published one fact in a proclamation."

FUTURE PROBLEMS.

"With respect to the future I can say little. There is the problem. In its work the Commission has endeavored to eliminate from the original arrangement all features that have appeared faulty or weak. These sections have simply been retained, leaving nothing in their place. What will be the whole document of proper effectiveness is the tripartite treaty under which it will have to operate. I am sure that no government in Samoa will succeed under such an arrangement. The sooner the powers get together and formulate some correction, the better for all concerned."

Judge Chambers said he had finished up all of the cases to come before the court this summer. The commission is empowered to appoint a Chief Justice at Apia, to act in case anything arises before a permanent choice is made. Up to the time Chambers left, the Commission had not decided whom the new man would be.

HER LIFE

FATHER WEEPS
FOR HIS CHILD

Associated Press Dispatches by The Tribune's Special Leased Wire. SAN FRANCISCO, July 28.—Mattie Tyrer, aged 15, was found by detectives, through the divorce courts, Wolf had promised to legalize their union by marriage. The father, E. C. Atwood, is an engineer and mechanic. He has reared his family with the strictest care and is heartbroken over his daughter's downfall.

PATHER'S STORY.

"I have lived a Christian life," he said, "and have endeavored to bring up my children the same way. I am a plain man, but I have the greatest respect for truth and right. For years I have had my little family gathered in prayer every evening before retiring. I have read the Bible to them and have done all in my power to bring them up in the Christian faith. After all my training, the devil in the shape of this man Wolf creeps into my household to ruin it. I do not blame my daughter. I know that she was led away by the smooth tongue and glittering promises made by Wolf. She was not a strong girl and was easily influenced. Before that man came into her life she had always been a good and dutiful daughter. I have done all in my power to save her. She is of age and has the right to do as she pleases. I will do nothing further to restrain her course. I will let her learn by bitter experience the lesson that the world has to teach. She will not heed the advice of the parents who love her, and would do all in their power for her. Her lesson will have to be learned by actual experience. I know that all the promises made to her by Wolf are false. She has been made his slave."

FOUND A GUE.

"There was one clue upon which to work. That was the fact that the young girl had been keeping company with C. J. M. Wolf, timekeeper for the Judson Manufacturing Company, for some time before her disappearance."

"She was working but had not been living happily with his wife. They had quarreled frequently, and there was talk of divorce proceedings. On one occasion the watchman of the Judson works had to interfere to keep Wolf from using his fists on his wife."

It was further known that he had resigned his position and left his wife about the same time Mattie left her home. This led to the suspicion that the two might have gone off together. It was given out that Wolf had gone to Los Angeles. Efforts there, however, were of no avail.

It was only a few days ago that Deputy Sheriff Striker got definite trace of the missing couple. Through A. W. Moore, superintendent of the coal mine at Tesla, it was learned that the couple had located there, where they were known as Mr. and Mrs. Charles Lester. He had secured employment at the mines.

ASK FORGIVENESS.

The parents were heartbroken when they heard the news. The daughter was implored to return to the home she had forsaken. This she refused to do. She wrote a letter home asking forgiveness and saying that she was seeking to remain where she was. She also stated that as soon as all obstacles had been removed she would return to her parents.

FOUR BLACK
BRUTES HANGED.

On Our Gallows They Pay the
Death Penalty for Their
Atrocious Crimes.

Associated Press Dispatches by The Tribune's Special Leased Wire. BALTIMORE, July 28.—Upon one scaffold and simultaneously, four negroes were hanged at 9:45 o'clock A. M. today in the Baltimore City Jail yard. Cornelius Gardiner, John Myers and Charles James paid with their lives for criminal assault on Annie Baily, a 13-year-old negro. Joseph Bryan, the fourth, killed Mary Pack, a negro.

The necks of James, Myers and Bryan were broken by the fall, and they died almost instantly.

Gardiner's cap became disarranged in the fall, and his face was visible to the spectators. He was apparently conscious about one minute, after which he slowly strangled.

AN ATROCIOUS CRIME.

The crime committed by Gardiner, James and Myers was particularly revolting. Annie Baily was in her room alone when the men entered, one at a time, and assaulted her. After two weeks of suffering, during which the child was unconscious most of the time, her strength returned and she was sufficiently recovered to appear against her assailants.

Joseph Bryan was convicted of the murder of his common-law wife, Mary Pack. Bryan had lived about six years with the woman, who had deserted her husband. They had frequent brawls. In the last one Bryan cut the woman's throat.

SECRETARY OF THE

Associated Press Dispatches by The Tribune's Special Leased Wire. LOS ANGELES, July 28.—George Denio, recently appointed by Governor Denio as secretary of the new Code Commission, leaves for San Francisco tonight. The first meeting of the Commission will be held in San Francisco on Monday. It is stated here that the secretary of the Commission is to be Walter P. Henning of the local law firm of Henning & Bowditch.

[William Nat Friend and Will B. Pringle of this city are both candidates for the position of secretary.]

BADLY HURT IN COLLISION

Associated Press Dispatches by The Tribune's Special Leased Wire. STEUBENVILLE, Ohio, July 28.—Ten men were badly injured and a large number of others were bruised and cut in a collision today between a work train on the Cleveland & Pittsburgh Railroad and a sailing engine near Mingo Junction. The most seriously injured were: John Bowen, James Taiten, Thomas McEwen, Isaac Thompson, William McArthur, Oscar Bell, Edward Porter, Matt Martin, John Sullivan, John Hollerman. The accident was caused by a misplaced switch.

BOY CRUSHED TO DEATH.

Associated Press Dispatches by The Tribune's Special Leased Wire. LOS ANGELES, July 28.—The 4-year-old son of E. N. Banks, a sawyer in a planing mill, was instantly killed this morning by being crushed under the wheels of an express wagon loaded with sand.

The boy had been allowed to go to his grandparents' house on Los Angeles street to play. In some way he crawled between the wheels of the wagon, and when the child's grandfather started the horses the wheel passed over the child, killing him instantly.

CANARD ABOUT THE CZAR.

Associated Press Dispatches by The Tribune's Special Leased Wire. PARIS, July 28.—At the meeting of the Cabinet this morning the Minister of Foreign Affairs, M. Delcasse, briefly summarized the provisions of the American-France Convention.

M. Delcasse also disposed of the story, which has created a great sensation, to the effect that the Czar of Russia had telegraphed Prince Louis Napoleon on his birthday expressing the cordial hope that each year would bring the Prince nearer the realization of the wishes of his friends, "who" it was alleged the Czar's message had said, "are as numerous in France, as in Russia."

M. Delcasse said the story was a pure invention, and that it had been concocted in Paris.

ALL THE
NEWS OF ALAMEDA COUNTY

ALAMEDA.

ALAMEDA, July 28.—The action of the police in trying to hush up the field case is attracting a great deal of attention. Officer Welch, it will be remembered, stated that he could not swear that the bullet which killed through his head (Welch's) had been aimed at his head. He has also told several stories regarding the occurrence which do not seem to tally with the real facts of the case. Trustee Miller has had several lengthy talks with Chief Conrad over the subject and it is not unlikely that the board may make an investigation of the circumstances of the case.

CAPTAIN BARNES DROWNED.
It is thought that Captain Douglas G. Barnes of 33 Taylor avenue was drowned in the Yukon June 10th. A small boat in which he was sailing was capsized and a few days later was found overturned 20 miles down the river. The last news received from the party in whose company he had been was to the effect that the captain had gone through the winter without a day's illness. On Tuesday night, Captain Barnes would have attained his 70th year. He was a native of New York and came to California in 1850. He established a planing mill on First street in Oakland and for a time was a member of the Council of that city. He then moved to Vallejo and eight years ago settled in this city.

SHEDDING SHOULDER STRAPS.
The election of Captain of Company G, National Guard of California, will take place next Thursday evening. There will be three aspirants for the position. Captain Simpson will seek re-election and Lieutenants Wehlein and McDonnell will also seek for the prize.

FUNERAL OF R. E. MANSON.
The funeral of late Robert E. Manson took place yesterday morning from the family residence, 555 San Jose avenue. Rev. Dr. T. J. Lacey, rector of Christ Episcopal Church, conducted the services. The remains were laid to rest in Mountain View cemetery.

J. L. Clute, the well-known contractor was in town Wednesday.

LIVERMORE.

LIVERMORE, July 28.—A carload of electric light machinery, including a dynamo with capacity of 250 volts for the Livermore Water and Power Company, was received Wednesday. Three carloads of electric light poles were received today and a large consignment of wire will be in place during the week and it is expected the new lines will be ready in a few days. The company has in contemplation the erection of a swimming bath with a cemented tank 60 feet by 40 feet. A brick building with glass roof will probably be built between K and L and an excavation for the tank be made in the center with dressing rooms and private bath rooms on the sides. This no doubt will prove a paying investment and will attract a great many people to Livermore from the surrounding villages.

Misses Leah and Annie McLeod are visiting their mother at Capitola.

Mrs. G. E. Atwood has moved to San Francisco.

Oscar Conard, Clarence Beck, Fred Malby and Willie Malby will leave tomorrow on a hunting and camping trip to the west of Mendocino county.

Mr. George Beck and Miss Mabel Beck left for Capitola yesterday for a two weeks' vacation.

Henry H. Wagoner has returned from Capitola.

The club which is now being organized for the purpose of clearing up the throwing of decayed fruit, old papers and rubbish of all kinds into the streets.

L. W. Forsting and Samuel Swift were appointed to find a competent man for the position of district cleaner.

Henry Pascoe said that the weeds on the street in front of the Garfield school were an eyesore to all pedestrians, and he felt that the janitor of the school ought to be instructed to clean that portion of the street.

The matter will be brought to the attention of the school board.

Dr. N. K. Foster, chairman of the committee set to the Central Club, expressed his belief in the successful formation of the club and felt that it would be able to do much good.

Mr. Pascoe hoped that the members of the Central Club would work together. He felt that if the members were united in their efforts they could accomplish almost anything.

The following resolution was then offered by Dr. Foster, and unanimously adopted by the club.

"Resolved, That the Twenty-third Avenue Association views with favor the efforts of the Fire and Water Committee to secure for the city a new water supply under municipal control, and that we request the Councilmen from the Seventh ward to favor such movement."

Dr. Foster suggested that East Fourteenth street would be the proper street, and thought that it ought to be paved with granite and felt that it would be able to do much good.

Mr. Swift suggested that all sewers be laid before any paving is done.

Dr. Foster said that some of the people in the Brooklyn district should be instructed to clean that portion of the street.

Dr. Foster stated that the only hope of getting the work done this year was in the issuing by the city of bonds, because unless there was a bond issue there would be no money for this improvement.

NORTH OAKLAND.

NORTH OAKLAND, July 28.—Miss Annie Guild, daughter of Mr. and Mrs. E. G. Guild of 17 Helen street and Clarence Kent, a Crockett undertaker, were married Wednesday evening at the residence of the bride's parents. The ceremony was performed by Rev. Bailey of the North Oakland Congregational Church. Only immediate friends of the young couple were present. At the conclusion of the ceremony Mr. and Mrs. Kent left for Del Monte, where they will spend the honeymoon.

Mrs. Canfield, who resides on Myrtle street, Twenty-first, has returned from the country.

A. Miller is having his building at the corner of B and Louisa streets repainted.

The heavy business of the Southern Pacific Company will continue without any decrease, either in the freight or passenger traffic. All the rolling stock on the division is needed to carry on the business. This year's activity is unprecedented. In railroad business of the coast, the Southern Pacific has been employed for so much rolling stock brought into requisition.

There is no special movement of freight or passengers either east or west but a heavy general business both ways. This is of great advantage to the company as it enables it to use cars and coaches running both ways.

PASSENGER TRAFFIC.
The passenger traffic is made up of a large amount of coast travel combined with the unusually heavy travel to and from the East. The overhead electric train is still being sent out in two sections in order to accommodate the large number of passengers going East.

OREGON TIME TABLE.
About the first of next month the time table of the Oregon train will be changed. Instead of leaving San Francisco at 7 o'clock in the evening as at present, it will leave at 10 o'clock. It will also arrive from the north a half hour later.

FREIGHT SHIPMENTS.
The shipments of freight continue to be very heavy. Car loads of fruit are arriving daily from all over the State.

Besides the large local market for California fruits, there is a large increase in the Eastern demand this year. There are about thirty car loads sent to Eastern markets daily. Twenty car loads are shipped to San Francisco daily and the canneries about the bay receive about twenty cars daily.

What is a valuable product that is beginning to be shipped in large quantities. About 250 cars are sent to Port Costa every day to be exported. A large amount of the wheat goes to Europe.

The sugar traffic remains steady. Some of the plantations in the Hawaiian Islands have just begun their shipments. While most of the sugar goes East, there is a considerable amount taken by the local market. The sugar works at Crockett receive about twenty cars daily.

HONOLULU TRADE.
During the last two weeks there has been an unusually large shipment of pipe to Honolulu. About 300 car loads have been stored at the West Oakland yards for some time is now being shipped to Honolulu on each day.

The pipe is to be used for irrigation purposes on the sugar plantations. Generally it is a hard matter to secure ships to transport pipe on account of the low freight rates and the difficulty of finding the other kind of freight, and more profitable to the ship companies and when there is plenty of cargoes to be secured the pipe is not generally chosen.

At the present time the demand for pipe on the plantations makes it difficult to find the other kind of freight, and more profitable to the ship companies and when there is plenty of cargoes to be secured the pipe is not generally chosen.

Mr. Pascoe hoped that the members of the Central Club would work together. He felt that if the members were united in their efforts they could accomplish almost anything.

GOMEZ MAY RULE SANTO DOMINGO.

Has Long Had Designs on the Presidency and Is Likely to Realize Them.

Associated Press Dispatches by The Tribune's Special Leased Wire. CHICAGO, July 28.—The Tribune's special from Washington says: By the assassination of President Heurieux of Santo Domingo, Cuba may lose one of its central figures, as it is well known that General Gomez has long had designs on the presidency of the black republic.

Some time ago General Gomez issued a manifesto to the Cuban army in which he said his soldiers good-bye and glorified his intention to return to Santo Domingo, his native land. Gomez's love for adventure and fighting for what he calls liberty are well known, and it is believed that he will start for Santo Domingo at once, organize an army and endeavor to fight his way to the presidency. Gomez is a good organizer, and those who came in contact with him in Cuba say he is one of the best soldiers in Cuba, and he has the tendency to stick to a cause until it triumphs. The old General knows he will not be chosen President of Cuba, if that island ever has a President, as it is believed the constitution of Cuba will follow closely that of the United States and provide that only native Cubans can be elected to the highest office.

This bar will not confront General Gomez in Santo Domingo, as he was born in Santo Domingo and his family still resides there.

Although Gomez has been absent from Santo Domingo for a number of years, he still claims it as his home, and this claim will undoubtedly hold good. As it is natural for troops to flock to a successful soldier, it would not be surprising if General Gomez should organize a large army within a short time and find himself in the presidential chair.

While little is known of President Heurieux, few persons believe he can maintain peace, as there are pronounced signs of revolution brewing. With a third candidate in the field in the person of Juan Isidoro Jimenez, it is said this will not promote tranquility, and instead of the peace which General Gomez many believe he will be the next President of Santo Domingo.

It is thought a large number of Cubans will follow Gomez to Santo Domingo and again take up arms under his command. While the departure of General Gomez would be regretted, it is believed here it will not have any material effect in Cuba, and affairs will go as smoothly as they are at present.

UNITED STATES MAY HAVE TO ANNEX SANTO DOMINGO.

NEW YORK, July 28.—General Abelardo A. Moscoso, an exiled leader of the liberal party of Santo Domingo now living in New York, said last night: "The death of President Heurieux, I think will be surely followed by a long state of disorder and revolution. I want, to emphasize this prophecy—that the United States will eventually be compelled to interfere to establish peace in the island, just as this country did in Cuba."

"I favor the policy of peace. I shall be glad to return to my country and support such a policy if it is inaugurated by General Figueroa, the Vice President, who succeeds to the head of the government."

"But if something is not quickly done to establish order and peace, more revolutionary expeditions will follow like that of General Jimenez and General Morales, who led a band from Cuba against Heurieux."

"There are now in this country General Toribio Garcia and Edward Grullon, who share my views. We think the United States ought to take an interest in our West Indian republic. It will be a great commercial ally. It lies between Cuba and Porto Rico. It must, of necessity, I believe, ultimately become attached to this country."

General Moscoso has been an exile in New York for three years. He opposed the late President politically and had to flee to save his life.

Erwin York, secretary of the Santo Domingo Improvement Company, which controls the country's finances, said yesterday: "Should the new administration attempt to repudiate our contracts we shall certainly, as American citizens, call upon the Washington administration for protection. I do not believe there will be any repudiation."

The contract with the improvement company was signed by President Heurieux in 1894. It gives to the company the railroads and the right to collect customs. In return for these concessions the company has assumed the national debt of the country, which is principally held in the United States.

HEUREAUX'S SLAYER EDUCATED IN THE UNITED STATES.

NEW YORK, July 28.—The Times says: Ramon Caceres, the murderer of President Heurieux of Santo Domingo, is about 25 years of age and is connected with one of the best and richest families of that republic. "A considerable portion of his life has been spent in the United States," the Times says, "and he has completed his education at the Jesuit Polytechnic Institute at Troy, where he was graduated about four years ago."

While residing in Troy he married Lily, the adopted daughter of Mr. and Mrs. J. S. Hakes. Mr. Hakes died some years ago, and his widow passed away soon after her adopted daughter's marriage to Caceres. All of the property was left in Mrs. Caceres' hands. Part of the real estate, consisting of a block on Fulton street, Troy, was recently sold to ex-United States Senator Edward Murphy, Jr.

Caceres converted all his wife's property into cash, and they came to New York and made their home here for some time. Caceres often said that he saw in the opportunity offered by him to go to Santo Domingo and inaugurate a revolution. He started on his mission a few weeks ago, leaving Mrs. Caceres here. Those who know Caceres are confident that he will have his plans well and that he taken precautions to insure his escape.

TUPPER'S VOICE IS NOT FOR WAR.

Canadian Statesman Wants the Boundary Dispute Settled Amicably.

Associated Press Dispatches by The Tribune's Special Leased Wire. NEW YORK, July 28.—The Herald's correspondent at Ottawa has interviewed Sir Charles Tupper, leader of the opposition, and Senator David Mills, Minister of Justice, on the Alaskan boundary question. Sir Charles Tupper wants to go to the length to show that the Canadian contention was supported not only by American precedents, but by the language of the treaty.

"The settlement of the question," he said, "in accordance with our contention, is a matter of great importance to Canada, because it gives us easy and inexpensive access to our own territory, whereas, if the United States win, it will be a great detriment to us and of little benefit to them. I recall a boundary dispute between the United States and Great Britain in which the American authorities contended that their view ought to prevail because the concession was of great advantage to them without being so to the United States."

"After detailing the contention that the line was to follow the winding 'of the coast' and cross the mouths of lakes and estuaries from headland to headland without following the sinuous line of the coast, the senator said: 'Mills made this statement: "Why should the Americans expect to arbitrate or to compromise on conditions impossible to us is shown in the treaty of 1825. By the seventh article of that treaty, the vessels of Russia and England or those belonging to Russian vessels navigating the Pacific ocean, if compelled by storm or accident, were allowed to take shelter in the ports of the respective parties, and were at liberty to refit there."

"Now is it not clear to admit of another that the contracting parties assumed that under the provisions of that treaty there were ports and estuaries along the coast that were under the sovereignty of each? Yet if the United States contention is correct there were no ports and no waters remaining to Great Britain?"

CLARENCE LYNN CANAL.

"As a matter of fact, if the treaty is followed, the line will be found to be entirely within Canadian territory. This point was made in the commission. On that Canada would have won. That is why there is no arbitration."

Sir Charles Tupper said: "The situation in this case is very peculiar. Great Britain and Russia in 1825 the boundary between the Russian possessions and the British possessions was defined. The United States have come into possession of all the rights of Russia, and it is now the most friendly feeling on the part of Great Britain, as well as Canada, toward the United States and a desire to have the two countries so close geographically placed commercially, politically and socially on the most cordial footing."

QUOTES SOME HISTORY.

"The party I represent has always shown this desire. That was shown by the treaty of 1817, when Sir John Macdonald was one of the High Commissioners for the settlement of the Alabama claims and questions affecting Canada. I recall the terms of the treaty of 1858, when Joseph Chamberlain and I were commissioners. That treaty, which was designed to settle the Atlantic fisheries question, was unanimously signed and unconditionally ratified by the House of Commons, but the United States Senate rejected it that body."

According to all accounts, the experiment of using native troops in Porto Rico has been successful. When Adjutant General Corbin was asked today what he had heard about them, he answered at once:

"General Davis, you may have observed, has not attracted much attention since he took command in Porto Rico. That is a good sign, for with the slightest dissatisfaction we should be hearing a great deal. He has a battalion of Cubans in service at San Juan, and Major Carson, who has seen them on duty, tells me that they are fine men, under admirable discipline, proud of their uniforms and the Government, and with many Lieutenants of their own race and language, are quite contented and useful. I hope that this attempt to make use of the natives in Porto Rico may be extended and that in other ways they may be encouraged to protect and provide for themselves. When the time comes for Cuba to follow in the same path, we will be glad to withdraw our troops and afford them opportunity to show their capacity for preserving order."

AGUINALOD'S WAR SUPPLIES

Associated Press Dispatches by The Tribune's Special Leased Wire. NEW YORK, July 28.—A special to the Herald from Washington says: According to verbal reports to the navy from Manila, Aguinaldo continues to get supplies through German merchants in Hongkong and Japanese merchants in Yokohama, although our Consuls have been directed to keep a sharp lookout for him. In Manila, more than one instance of British officers being aided by the United States in preventing the shipment of arms from Hongkong, but officers just returned say there is no doubt the temptation offered by Aguinaldo's high price for arms is too great for the neutrality laws and try to force the imperfect blockade.

Twelve Spanish gunboats recently put on blockade duty have done remarkably good service in cutting off supplies being sent to Aguinaldo by mail and reports said they had captured sixteen different cargoes of supplies, but not any valuable munitions of war.

CANADA'S FINANCIAL LEAD.

Associated Press Dispatches by The Tribune's Special Leased Wire. NEW YORK, July 28.—A special to the Tribune from Ottawa says: The main and supplementary (\$5,197,345) estimates for the year ending June 30, 1900, presented to Parliament, amount to \$52,000,000. This is an increase of \$4,000,000 over the estimate of \$48,000,000. The Liberals promised that if they were returned to power they would reduce by some millions of dollars the annual expenditures, and in 1899-1900 before the Liberals got into power Sir Richard Cartwright, Minister of Trade and Commerce, declared that it took the enormous sum of \$30,000,000 to run the public affairs of the country. The population of Canada in 1890 was 4,733,000, so that an annual expenditure of \$30,000,000 would be at a rate of about \$6.35 per capita of the population. Canada's population today is estimated at 5,210,000 which, with an annual expenditure of \$52,000,000, brings the total financial burden per capita up to nearly \$10, or an increase of nearly \$3.75.
